REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Gilsum:

I hereby submit my annual report as Superintendent of Schools:

ORGANIZATION AND ENROLLMENT

No changes were made in the teaching positions this year.

In the assignment of preference ratings, schools have been classified as a necessary productive agency. This recognition is given to facilitate the process of procuring equipment and supplies which are necessary for their maintenance. Thus is emphasized the importance which education has in the program for the defense of the principles of democracy. The present emergency places on our schools a two-fold responsibility; namely:-

1. The general education and training of pupils to produce intelligent and helpful members of American society.

2. The development of attitudes toward democracy and the attainment of the basic knowledge and skills necessary for the realization of our immediate objectives.

The democratic pattern for education provides that mental and emotional attitudes shall be well balanced and shaped by intellectual understanding. The responsibility of our schools should be extended to serve adults as well as the younger pupils. It is recognized that the public schools must assume some responsibility for the thought and well being of all people capable of profiting from instruction — either academic or practical. The democratic principles of freedom of thought and action may be safely entrusted to a generation of people who are prepared in our schools for this responsibility.

Care must be exercised that the long range program of our schools shall not suffer from the pressure of other important ob-

jectives demanding immediate attention and support. Competition from expanding industrial defense preparations has already caused a scarcity of qualified teachers. The larger towns and cities will undoubtedly seek to maintain their school standards by looking to the districts which are on a low salary schedule for candidates to fill their vacancies. Other school costs are advancing and are bound to increase still more. Some of this increase may be offset by practicing measures of strict economy when consistent with efficiency. Although certain temporary adjustments in the use of instructional materials will be compelled by the present emergency, no retrenchment in our general educational program should be made as a result of misguidance in measures designed to effect economy. Your children are entitled to the best instruction that modern education can provide within the range of local facilities and reasonable financial support.

The welfare of each local community and the future of our country depend upon the attitudes developed in well organized and supported public schools.

The new edition of the Elson-Gray reading system has been adopted as the basal reading program for the three primary grades. These books are in use this year in Grade 1. It is hoped that new books may be purchased each year until all three grades are equipped with this modern program. The system is complete with reading readiness material, pre-primers, primers, graded readers, work books, and supplementary devices.

ENROLLMENT, JANUARY 15, 1942

Village Primary	13	10	10						33
Village Intermed.				9	12	5			26

A full day institute for the rural school teachers of this area was held at Westmoreland. On November 7, nineteen school superintendents from the central and southwestern areas of the state met at the Vilas school at Alstead for an all day conference.

The possibility of danger threatening the lives of the civilian population in the modern type of warfare has placed a new responsibility on schools. Each teacher has been informed of the general principles governing the organization of schools preparatory to an air raid attack. Plans have been outlined in each school to take care of the pupils either in the school building or in the immediate vicinity of the school. All plans providing for an air raid emergency refuge follow the recommendations of the State Defense Council and will have the approval of the superintendent and local air raid warden.
